- DEET free ; does not alter clothing accessories.
- Leak proof thanks to the crimped pump.
- Ideal in tropical aeras
- Suitable for children and pregnant women
- **Recyclable packaging.**

Calculated Carbon Footprint

40% of bites occur through clothing !

For the best complete solution, use also our SCREEN2P Wear ® solution for clothes and fabrics

APPLICATION

Spray

1. Spray directly onto the parts of the body to be protected. For the face, spray the product on the hand before applying it.
2. Spread the repellent evenly on healthy, clean, dry skin.
3. Repeat the application 2 to 3 times a day if sweating, and routinely after each swim.
4. In humid climates, renew the application more frequently.
5. Apply the repellent at least 20 minutes after sunscreen.

*Dose applied according to the WHO: 1g of product per 600 cm²
(600 cm² is the estimated surface area of a forearm).*

Test the product beforehand on a small portion of skin. Wash hands before eating.

Do not apply on mucous membranes.

The spray delivers a dose of 100 µl.

TECHNICAL DATA SHEET

If an application involves the face and 2 forearms:
