

TECHNICAL DATA SHEET

BIOCLEAN 360

Blue Concentrated Deodorising Detergent for Sanitation of Aircraft Toilet Systems

DESCRIPTION

BIOCLEAN 360 is a blue coloured concentrated fluid, formulated specifically for use in aircraft lavatories. Its unique combination of deodorising, detergent and scale inhibitor properties prevents malodours and keeps the aircraft toilet system clean and fully operational.

BIOCLEAN 360 can be added as a concentrate into tank trucks and used diluted for the treatment of on-board sanitary facilities. It can also be used to add to on-board reservoirs or waste tank systems. It is suitable for both toilet recirculation and vacuum systems.

Passengers and crew will notice perfect odour control and improved performance from recirculating toilets. Ground handlers will benefit from improved hygiene safety in disposing of waste that has been correctly treated before removal from vacuum waste tanks.

FEATURES & BENEFITS

- Unique set of surfactants and fragrances for long-lasting control of malodours and deposit of sludge in tanks and pumps.
- Non-flammable formulation. Excellent solubility in water.
- Non staining dark blue colour. Slight and non-persistent foam.
- Formaldehyde free and phenol / phenolic derivatives free.
- Safe on all surfaces of the aircraft.
- Suitable for re-circulating or vacuum toilet systems.
- Concentrated formulation (1:99)
- Biodegradable formulation.
- Recyclable packaging.
- Calculated and Compensated Carbon Footprint

APPROVALS

- AMS 1476
- NATO Stock Number: 6840-66-1669173 (5L)

DIRECTIONS FOR USE

BIOCLEAN 360 is a concentrated product to be diluted at the rate of 1 litre to 99 Litres of water (1%). Add to the toilet water reservoir tank. Allow the product to mix and create a constant blue colour.

PHYSICAL AND CHEMICAL PROPERTIES

Physical state:	Liquid
Colour:	Dark blue
Density:	0.99 +/- 0.03
pH:	7.0 +/- 1.0
Shelf life:	30 months
