

## TECHNICAL DATA SHEET

# SICKNESS BAG

### DESCRIPTION

Sickness bags are for use in aeronautics, maritime, railway and land transport. They are designed to be light and resistant and waterproof to organic waste, made available for passengers in case of nausea. They can be customized on demand, with company color and logo, or specific texts.

### CHARACTERISTICS

- Different shapes:
  - “**Square bottom**” bag with a flat bottom
  - “**V-shape**” bag with a stick bottom
- Several types of closure are available:
  - without closure (standard)
  - with clip for closure after use (upon request)
- White bag by default or customizable (logo and color) upon request

### DIRECTIONS FOR USE

Open the bag and place it in front of your mouth.  
After use, fold down the upper section of the bag.  
Return used bag to appropriate staff for proper disposal.

### DETAILS

Each bag can be manufactured in plain white paper, or with logo and color of your company.

	Shape	Closing after use	References	Dimension (mm)	Paper weight	Color	Sealed before use
